Top tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Practical resources

Your child has one potato on their plate and you give them three more. Can they predict how many they will have now?

- Make a poster to show different ways of making six.
