### Top tips

The secret to success is practising little and often. Use time wisely. Can you practise these KIRFs while walking to school or during a car journey? You do not need to practise them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

### Practical resources

Play games – Make some cards with equivalent fractions, decimals and percentages. Use these to play the memory game or snap.

Or make your own dominoes with fractions on one side and decimals on the other.
