

EYFS Safeguarding, Welfare & Care Policy

This policy sits alongside the whole school's safeguarding policy.

Wherever possible, toys display recognised safety marks such as the **CE Marking** or the **UKCA Marking**, and may also carry the **British Standards Kitemark**, indicating compliance with relevant safety standards. Staff regularly check resources to ensure they are clean, intact and free from small detachable parts that could present a choking risk. Particular care is taken with items containing **Button batteries**, which are kept securely enclosed within products and never accessible to children due to the serious risk they pose if swallowed. Damaged toys or those considered unsafe are removed immediately, and children are always supervised during play to reduce the risk of choking or injury.

We have appropriate filtering systems in place to block access to harmful, inappropriate, or unsuitable content. These systems are regularly reviewed to ensure they remain effective and age-appropriate for Early Years children.

Monitoring systems are in place to oversee the use of technology by both staff and children. Internet activity may be monitored to ensure compliance with our safeguarding and acceptable use policies. Any concerns identified through monitoring will be reported immediately to the Designated Safeguarding Lead (DSL) and managed in line with safeguarding procedures.

Children's access to technology is always supervised by a member of staff. Devices are used for planned, educational purposes only. Staff receive regular training to ensure they understand online safety risks and their responsibilities in maintaining a safe digital environment.

We work in partnership with parents to promote online safety and share guidance on keeping children safe when using technology at home.

Although young children may not use digital devices unsupervised, the setting protects them by:
